Experience

M60 Design Group
Design Lead
2007 - 2011

- » Designed and created multiple sites for small and medium sized businesses.
- » Consulted on web service integration, streamlining operations with free and low cost software, and mobile software solutions.
- » Found solutions for a wide variety of commercial web hosting issues, as well as building web servers for self hosting clients.
- » Sub-contracted with other design companies, providing code fixes, streamlining, plug-in editing and implementation, security assessment and updates.
- » Created logos, comps (static and live), presentations, and other documents for start-ups seeking investors.

FedEx Office
Production Manager
1994 - 2007

- » Designed and consulted on the creation many office documents, logos, and presentations for a multitude of clients.
- » Created oversize banners, cut vinyl graphics, and other large format signs.
- » Maintained printer and file servers for multiple production machines, as well as servers and hardware routers for customer web access.
- » Responsible for work-flow management, onsite and outsourced.

Apophis Consortium
Design Director
2000 - 2005

- » Created design elements and artwork for the award winning Obsidian line of gaming books and supplements.
- » Built design bibles for freelancers to maintain consistency in submitted artwork.
